

Innovation • Best Practice • Productivity

The Herts & Beds CE Club (HBCEC) holds regular events and awards focused on best practice in design, project management and maintenance of building projects and offers the opportunity to meet informally and network with other construction consultants, contractors, suppliers and clients to learn from each other and ultimately improve business.

Our local Club provides a relaxed, social environment whilst hearing from industry experts about hot topics and local issues. We have joined forces with Herts Chamber of Commerce (HCC) to form a Property & Construction Forum offering a wider range of local events for anyone interested in the built environment.
