

Regeneration & Conservation

Constructing Excellence Awards Entry Form

Category Description

The Regeneration & Conservation Award aims to highlight projects or programmes that apply the Constructing Excellence principles to deliver better outcomes **for an existing asset**. These principles include procurement, innovation, collaboration, culture/people, productivity, client satisfaction, HS&W and Digital. Applicants must demonstrate how they achieve improved outcomes against these principles. Applicants should demonstrate the use of specialist skills and techniques, where appropriate, to ensure any works are in keeping with existing historic/ heritage features.

Judges are looking for projects or programmes that demonstrate:

- Successful delivery of client / community goals and expectations.
- Improved performance of the existing asset.
- Collaborative practices within the delivery process.
- Use of digital through the project.
- Employment of innovative techniques.
- Use of traditional/specialist skills, where appropriate.
- Measured impact of the solutions and end result.
- Excellent outcomes and high standards in the repair, re-use and revitalisation of sites and buildings.
